#Maximum payload carrying capacity based on kerb weight excluding accessories and occupants. Front and rear axle loads must not be exceeded. Maximum braked towing capacity figures are for Australia only and is subject to regulatory requirements & vehicle weight restrictions (which may require occupants and/or luggage to be restricted.) *NB2 requires a truck license in Australia. Customers are advised to check with their respective State Roads Authority for information. Customers in Australia requiring NB2 specifications must speak to their GMSV dealer before making an order a Silverado HD NB2 unit. + To achieve max Gross Combined Mass (kg), 3rd party tow bar hardware, braking system & certification is required. ^Some camera views require available accessory camera and installation.
